About Me - <https://edwin-moz.vercel.app/>

---

Before embarking on my journey into coding and programming, I held a supervisory position in a distribution warehouse. While assisting colleagues and employees in managing our systems and processes I found that my appreciation for technology we used everyday grew into a passionate interest. Motivated by this passion and the desire to enhance my skills I joined NSS. Now as a junior developer, I stand at the intersection between experience and knowledge, ready to contribute and innovate solutions.

## Store Dash

Watch my demo - [https://youtu.be/gZvvaf\\_fd8g?si=5EFPRrheoPMg-ba6](https://youtu.be/gZvvaf_fd8g?si=5EFPRrheoPMg-ba6)

Full-stack application. This app aims to illustrate the process in which store owners place orders from distributors, emphasizing the ordering process and using a modern ordering system.

**Smiley's Counter** - <https://smileys-counter.vercel.app/>

A simple counter that counts from 1 - 50.

**Smiley's Trackbag** - <https://smileys-trackbag.vercel.app/>

An application to keep track of items. This application uses our browser's local storage to persist data.

## Education Connect

Front-end capstone. This app serves as a tool for parents engaged in homeschooling and it helps to manage student's worksheets.

---

## Technical Experience

---

### **Nashville Software School**

Full-time • 6 months

Intensive, full-time software development bootcamp focusing on full-stack development fundamentals and problem solving. The final half of the program is executed in a simulated company environment with Scrum methodology.

- Hands on application of OOP fundamentals through group and individual projects reflecting real world business problems.
- Source code version control and project management with Git / Github.
- JavaScript fundamentals leveraging DRY, modular, readable code and reusable components.
- Built browser-based single page applications using React, HTML, and CSS.
- Styled application with CSS Frameworks, Bootstrap, and Materialize, and wrote custom styles as needed.
- Application design through white boarding dependencies and building ERD's.
- Created and modified database design / content using SQL, ADO.NET, and ORM tooling, including exposure and experience with migrations.
- Created RESTful APIs with C# and .NET using WebAPI.

---

## Professional Experience

---

### **Associated Wholesale Grocers - Grocery Warehouse Wholesaler**

Full-time • 12 years 11 months

- **Operations Supervisor I & II**

September 2015 - July 2023 • 8 years 7 months

- Led and managed the perishable outbound department. This includes selectors, forklift operators, loaders, sanitation crew, supervisors.
- Managed production and safety standards with precision, enduring consistency and high-quality results.
- Collaborated with my supervision team to optimize time management and implement streamlined methods to achieve daily goals and excellence.
- Effectively supervised a team of loaders, ensuring precision while maintaining the company's stringent safety and production standards.
- Demonstrated strong leadership skills by spearheading various projects and providing guidance and support to fellow supervisors as needed.

- **Warehouse Selector / Forklift Operator**

September 2010 - September 2015 • 5 years 1 month

- Proficiently operated heavy warehouse equipment, enduring strict company safety and production standards.
- Demonstrated strong skills and attention to detail in executing quality and accuracy.
